		Chevrolet	Sonic	2013 & Newer	1.4L & 1.8L
		Chevrolet	Trax	2013 & Newer	1.4L

* To be available June 1, 2017

GM did not release a differentiating VIN -

Visual inspection is required before determining the filter fitment for the housing.

- The filter-housing caps are slightly different (see photos on the next page).
The manufacturer's name is molded on the cap.
- The two filters are different -
Hengst: The filter does NOT have a valve. The bypass relief valve is in the housing.
UFI: The bypass relief valve is part of the filter (the spring on the upper cap).
